THE MUST-ATTEND URBAN ENERGY EVENT IN ASIA!

2nd ASIA URBAN ENERGY ASSEMBLY
Supporting the Energy Transition in the Asia-Pacific
31 August - 1 September 2023, Queen Sirikit National Convention Center Bangkok, Thailand

✓ 30+ Speakers
✓ 5+ International Seminars
✓ 200+ Participants
✓ Co-located with ASEAN Sustainable Energy Week

PLENARY SESSION
- SUPPORTING THE ENERGY TRANSITION IN THE ASIA-PACIFIC

RENEWABLE ENERGY
- SUPPORTING THE INTEGRATION OF RENEWABLE ENERGY IN CITIES

DISTRICT ENERGY
- INTERNATIONAL DISTRICT ENERGY OUTLOOK
- FINANCING DISTRICT ENERGY PROJECTS APAC

PARALELL SESSIONS
- TECHNOLOGY FOCUS / CAPACITY BUILDING
- BUSINESS MEETINGS / SITE VISITS

Session Introduction

Title: Asia Urban Energy Assembly – Supporting the Energy Transition in the Asia-Pacific
Event type: International Conference (part of the ASEAN Sustainable Energy Week)
Venue: Queen Sirikit National Convention Center, Bangkok, Thailand
Hosted by: APUEA and Informa Markets
Date: 31 August - 1 September, 2023
Time: 08:30 – 16:30
Language: English

Background:
The 2nd edition of the Asia Urban Energy Assembly will be held as a 2-day international conference between 31 August and 1 September at Queen Sirikit National Convention Center in Bangkok, Thailand. The event is co-located with ASEAN Sustainable Energy Week, one of ASEAN's largest and most comprehensive International Exhibition and Conferences on Renewable Energy, Energy Efficiency, and Environmental Technology. In 2022, ASEAN Sustainable Energy Week had more than 20,000 visitors from 52 countries, which makes it one of the best meeting platforms in the region to get updates on market developments, technologies, financing and project opportunities, and much more.

Most major economies in the Asia-Pacific region have set net-zero GHG targets by mid-century, and national governments are working to update energy and climate policies to achieve this. This year’s edition of the Asia Urban Energy Assembly is themed "Supporting the Energy Transition in the Asia-Pacific" and aims to present, discuss and explore solutions that can help to speed up the energy transition and help countries reach their climate targets. Luckily, the world’s Renewable Energy resources are vast, and Southeast Asia alone has 17.2 TW of Renewable Energy resources available. For example, using only 1% of available Solar PV resources in Thailand would cover the country’s total power production capacity of 49 GW.

Another important topic is the world's growing cooling demand. Today, space cooling stands for 10% of the world’s GHG emissions, and with increased temperatures due to global warming and population and economic growth in the hottest part of the world, the cooling demand is expected to triple by 2050, leading to equivalent increased energy demand if no action is taken. The majority of the growing cooling demand comes from Asia, which is why cooling is sometimes called the elephant in the waiting room, referring to its importance in the energy transition and meeting climate targets.

The 2nd edition of the Asia Urban Energy Assembly will focus on how the public and private sectors can contribute to the Energy Transition by applying technology and solutions that exist today to increase energy efficiency and integrate more renewable energy into our society. The event will include the latest outlook status of the Energy Transition, explore how more Renewable energy can be integrated into our cities, and how District Energy systems can be one tool in the toolbox to reach climate targets in the Asia Pacific region. The expected audience includes energy professionals from the public and private sectors, including utilities, government officials, policymakers, utilities, developers, consultants, investors, international organizations, universities, and more.

Supported by
Registration Fees – Special Categories

**POLICYMAKER**

This category is reserved for employees of institutions, national/ regional government departments, ministries or embassies. Utilities or operator representatives, even if those are fully municipally or state owned, are not included in this category.

Civil servants even if paid by regional/local authorities and seconded to a company or association are not eligible. Limited to a maximum of two (2) persons from the same organisation/institution. To qualify for this category please send an email to info@apuea.org with the delegate’s details to request the discount code, otherwise the fee will be charged.

Failure to enter the provided discount code, will result in the full participation fee being charged, with no reimbursement provided. Please note the onsite evening functions are not included in the category “Policymaker” but can be purchased.

**PRESS / JOURNALIST**

Please send a recognised press card and a commissioning letter from the editor to info@apuea.org to qualify for this category and receive the discount code, otherwise the fee will be charged. Failure to enter the provided discount code will result in the full participation fee being charged, with no reimbursement provided. Limited to a maximum of two (2) persons from the same organisation/publication. Please note the onsite evening functions are not included in the category “Press / Journalist” but can be purchased.

**SPEAKER**

Speaker / Chairman / Moderators etc. pay participant fee in line with the above types/categories unless discount code has been sent by the event organiser. Speakers or moderators failing to enter the sent discount code will not be reimbursed.
